

CAFITESSE IS A HYGIENIC CLOSED COFFEE SYSTEM

BREWED AT OUR ROASTERY CONFORM HACCP GUIDELINES

- Meets the strictest hygiene standards of FSCC 22 000 incl. HACCP and the EU directives
- Smooth Roast also produced and packed according to GFSI certificate FSCC 22 000

PACKED AND FROZEN IN A BAG-IN-BOX

- Closed bag-in-box packaging with integrated doser and additional protective film
- Stored frozen, thawed only right before use and cooled inside coffee machine to maintain freshness

WITH A STERILE MILC SOLUTION

- Café Milc is packed into sterile packing, limiting external influences
- Café Milc meets the hygiene standards of the GFSI certificate FSCC 22 000

DISPENSED AT YOUR PREMISES WITH MINIMIZED HUMAN INTERACTION

- No human contact with coffee: bag-in-box eliminates manual refilling of 'dry' coffee and disposal of 'wet' coffee residue
- Each Cafitesse bag-in-box serves many cups of coffee, reducing the amount of human interaction with the machine
- Easily sanitized user interaction surfaces
- Boiler temperature of over 90°C
- No residue left after dispensing coffee and milk thanks to brewing sequence
- Equipped with predefined mandatory cleaning intervals
